#### Town Improvement.

Under this heading, we are pleased to notice that town or public scales are being constructed, by our Municipal authorities. For weighing in wagon or in bulk, this will be a decided convenience and improvement.

### Ice and Sunsitine.

Anthony's picture takers ought to have been at Sumter on Saturday morning last. The prospect for Southern Winter Seenes was unusually fine. The day and night previous a gradually freezing rain had clothed the trees in a heavy coat of ice. Saturday morning witnessed an unclouded sun, which seemed to shine with more than usual splendor, imparting a glittering, crystalized aspect to surrounding nature, truly grand and sablime.

# Personal.

During the past week we were gratified by a visit from Mr. W. J. VEREEN. who represents South Carolina with the house of Anderson, Starn & Co. Clothiers, of New York. With many of our visitors from abroad, he boarded at, and complimented, the house kept by Mr. Chas. W. Davis, Himself much on the wing, his home and family are still comfortably located at Cheraw. Through him, the house of ANDERSON, STARR & Co., command a larger trade than any clothing house of New York, and all parties concerned are worthy of must be perfectly secure, since under

Town Stock-The Proposed Hall, &c.

Briefly, in our last issue, we gave our Town Council, looking to the erection of a Town Hall, Market, &c., on the public lot fronting the Court House. More careful examination of the matsupport of the project.

The plan proposed is simply this: To issue eight per cent Town Stock to the amount of Thirty five Hundred or Four Thousand Dollars, the proceeds

We believe that this should long since have been done. No live or progressive municipal corporation in the bounds of the country has ever hesitated to use its credit for its own advantage and improvement. Like the use of individual credit, it should always, of course, be attended with prudence and judgment, the hazard of fai.ure or loss being well guarded. But nothing is more simple or common than that now proposed by our Municipal body; and we venture to say that scarcely a town of similar size and importance can be

found which has no bonded debt. That bonds should be issued for current expenses, would no doubt be impolitic, since for this purpose the town We learned with regret, and announce treasury should be self-sustaining; but with sympathy, the burning, on Friday where it is proposed to invest the credit afternoon last, of the large and comfort- of the town, under ample chartered able residence of Dr. Thos.
